

ASHOOR DOUSHOW - SOFTWARE ENGINEER

Chicago, IL | +1 224-375-6003 | ashoor12323@gmail.com | <http://linkedin.com/in/ashoordoushow> | <http://github.com/ashoordoushow> | [Portfolio](#)

Objective:

Dedicated and highly driven software engineer with 5+ years of experience developing and implementing applications and solutions utilizing a variety of technologies and programming languages. Seeking to leverage hands-on technical expertise in a challenging role to further grow my experience in the technology industry.

Skills & Interests:

Languages / Frameworks: Ruby on Rails, JavaScript, TypeScript, React, Vue.js, Node.js, Flask, Bootstrap, Python, HTML5/CSS, REST, Backbone, Angular 2, Protractor

Data: PostgreSQL, MySQL

Applications: GitHub, Visual Studio Code, Git, Office 365, Webpack, Babel

Systems: macOS

Methodologies: Test-Driven Development, Pair Programming, API Development

Education:

Actualize Coding Bootcamp | Certificate in Full-Stack Web Development **July 2024 - November 2024**

A four-month full-stack web development bootcamp. Core technologies included Ruby, Rails, JavaScript, and React.js. Special emphasis on API-driven development, version control with Git, professional tooling, team collaboration, and continual learning.

Oakton Community College | Associates of Applied Science (A.A.S.) in Software Development **May 2018**

Maine East High School **June 2016**

Coding Projects:

Gym Fitness Website | Platform to track workouts and save personalized training plans for your goals. ([Repo](#))([Link](#))

- Engineered a full-stack Gym Fitness Website using Rails for the backend and React/JavaScript for the frontend to provide a responsive platform for users to track fitness goals, workout routines, and progress. Deployed the app on Railway.app for its scalability, ease of use, cost-effectiveness, and robust security features.
- Integrated PostgreSQL database to enhance application performance, allowing for 15% faster and more efficient storage and retrieval of user data and workout information.
- Utilized Rails console to manually populate the database with workout data, streamlining data entry and improving the overall functionality and user experience of the application.

Personal Portfolio | Portfolio highlighting my expertise and the innovative projects I've developed. ([Repo](#))([Link](#))

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase skills and projects effectively.
- Deployed the portfolio website to ensure accessibility and live demonstration of skills, making it readily available for potential collaborators and employers.
- Facilitated seamless communication by providing multiple contact options, including GitHub, email, and phone, ensuring easy accessibility for collaboration opportunities.
- Optimized the portfolio's user experience (UX) by implementing smooth navigation, clean design, and mobile responsiveness, ensuring a visually appealing and user-friendly interface across devices.

Related Work Experience:

Golf Maine Park District

August 2019 - January 2020

Technical Support

- Supported the development and maintenance of a timecard system for over 100+ employees, ensuring accurate clock-in/clock-out tracking and reducing payroll discrepancies by 20%.
- Assisted in troubleshooting and resolving software issues, providing timely solutions to users and improving system uptime by 15%.
- Collaborated with the development team to test new features and functionality, ensuring smooth system updates and a 10% improvement in overall user experience.

Other Work Experience:

FFE Transportation Services

April 2020 - November 2022

CDL Class A - Driver

- Efficiently operated Class A commercial vehicles, completing over 300 deliveries across 40 states, ensuring timely and safe transportation of goods for clients, with a 99% on-time delivery rate.

Glenbrook Hospital

January 2023 - December 2024

Public Safety Officer

- Monitored hospital premises 24/7, ensuring the safety and security of over 500 patients, staff, and visitors, leading to a 30% reduction in incidents over the course of the year.
