ASHOOR DOUSHOW - SOFTWARE ENGINEER

Chicago, IL | +1 224-375-6003 | ashoor12323@gmail.com | http://linkedin.com/in/ashoordoushow |
http://github.com/ashoordoushow | Portfolio

Objective:

Dedicated and highly driven software engineer with 2+ years of experience developing and implementing applications and solutions utilizing a variety of technologies and programming languages. Seeking to leverage hands-on technical expertise in a challenging role to further grow my experience in the technology industry.

Skills & Interests:

Languages / Frameworks: Ruby on Rails, JavaScript, TypeScript, React.js, Vue.js, Node.js, Flask, Bootstrap, Python, HTML5/CSS, REST, Ruby, Express.js, Java

Data: PostgreSQL, MySQL

Applications: GitHub, Visual Studio Code, Git, Office 365, Webpack, Babel, Jira, Slack

Systems: macOS

Methodologies: Test-Driven Development, Pair Programming, API Development

Education:

Actualize Coding Bootcamp | **Certificate in Full-Stack Web Development**   **July 2024 - November 2024**

● Relative Coursework: Data Structures, Software Engineering, Intermediate Object-Oriented Programming, Introduction to Computer Systems, Design and Analysis of Computer, API-driven development, Algorithms, Introduction to Computer Networks.

Oakton Community College | **Associates of Applied Science (A.A.S.) in Software Development**   **May 2018**

Maine East High School   **June 2016**

Coding Projects:

Gym Fitness Website | **Platform to track workouts and save personalized training plans for your goals.** (Repo)(Link)

● Engineered a full-stack Gym Fitness Website using Rails for the backend and React/JavaScript for the frontend to provide a responsive platform for users to track fitness goals, workout routines, and progress. Deployed the app on Railway.app for its scalability, ease of use, cost-effectiveness, and robust security features.

Task Priority Breakdown | **Visual time management app for organizing tasks by priority.** (Repo)((Link)

● Developed a full-stack productivity tool using Rails and React, integrating AI to analyze task descriptions and recommend priority levels. Deployed on Railway for fast and reliable access.

Related Work Experience:

Macguyver Tech   **March 2025 – Present**
Software Engineer Intern

● Worked closely with clients to understand technical requirements and deliver solutions on schedule, improving project turnaround time.

● Developed and maintained web applications using HTML, CSS, JavaScript, and Vue.js, enhancing functionality and responsiveness.

● Collaborated with UI/UX designers to create intuitive, user-friendly interfaces, resulting in a smoother user experience.

● Contributed to the development of a Mailgun API wrapper and implemented Swagger documentation to streamline client integration and testing.

● Participated in code reviews and team stand-ups, promoting clean, maintainable code and agile collaboration.

Golf Maine Park District   **August 2019 - January 2020**

Technical Support

● Supported the development and maintenance of a timecard system for over 100+ employees, ensuring accurate clock-in/clock-out tracking and reducing payroll discrepancies by 20%.

● Assisted in troubleshooting and resolving software issues, providing timely solutions to users and improving system uptime by 15%.

● Analyzed system performance and implemented improvements, leading to a 10% increase in operational efficiency.

● Collaborated with the development team to test new features and functionality, ensuring smooth system updates and a 10% improvement in overall user experience.

Other Work Experience:

FFE Transportation Services   **April 2020 - November 2022**

CDL Class A - Driver

● Efficiently operated Class A commercial vehicles, completing over 300 deliveries across 40 states, ensuring timely and safe transportation of goods for clients, with a 99% on-time delivery rate.

Glenbrook Hospital   **January 2023 - December 2024**

Public Safety Officer

● Monitored hospital premises 24/7, ensuring the safety and security of over 500 patients, staff, and visitors, leading to a 30% reduction in incidents over the course of the year.
