EDUCATION

Actualize Coding Bootcamp

Certificate in Full-Stack Web Development

Coursework: Data Structures and Algorithms, Software Engineering, Object-Oriented Programming, API-Driven Development, Database Systems, React, Cloud Deployment

Chicago, IL
November 2024

SKILLS

Languages: Ruby, JavaScript, TypeScript, Python, Java, SQL

Frameworks: Ruby on Rails, React.js, Express.js, Node.js, Bootstrap, Spring Boot

Tools & Platforms: PostgreSQL, Git, Docker, Swagger/OpenAPI, Mailgun, Jira, Railway, VS Code, Docker, Kubernetes

Cloud: Railway

Web Development: HTML5, CSS3, REST APIs, Responsive UI/UX Design, Service APIs

WORK EXPERIENCE

MacGuyver Tech

Software Engineer

Chicago, IL (Remote)
March 2025 – Present

- Designed and deployed RESTful APIs using Node.js and Express, improving response times by **40%**.
- Implemented Swagger/OpenAPI documentation for internal APIs, reducing onboarding time for developers by **50%**.
- Contributed to a Mailgun API wrapper ensuring secure authentication and standardized error responses across services.
- Automated Railway deployments for continuous integration and delivery pipelines.

Grand Prairie Transit

School Bus Driver

Mount Prospect, IL
December 2024 – Present

- Maintained a **100% safety record** transporting up to 60 students daily.
- Improved route efficiency by **25%** through optimized scheduling.

Glenbrook Hospital

Public Safety Officer

Glenview, IL
January 2023 – December 2024

- Ensured safety for 500+ patients and staff, reducing incidents by **30%**.
- Coordinated emergency response systems and streamlined incident reporting.

FFE Transportation Services

CDL Class A Driver

Chicago, IL
April 2020 – November 2022

- Completed 300+ cross-state deliveries across 40 states with a **99% on-time rate**.

Golf Maine Park District

Technical Support Assistant

Des Plaines, IL
August 2019 – January 2020

- Developed and maintained a timecard system for 100+ employees, reducing payroll errors by **20%**.
- Troubleshooted software issues, improving system uptime by **15%**.

PROJECTS

Gym Fitness Platform

Ruby on Rails, React, PostgreSQL

- Built a full-stack platform for tracking workouts and personalized training.
- Optimized frontend load times by **30%** through reusable React components.
- Integrated secure JWT authentication with PostgreSQL data persistence.

AI Task Prioritization App

Rails, React, PostgreSQL, Node.js

- Developed a productivity app with AI-based task prioritization and pie-chart visualization.
- Deployed using Railway CI/CD with zero downtime and drag-and-drop UI.

Mailgun Wrapper API & Swagger Docs

Node.js, Express, Mailgun

- Built backend services for automated email dispatch and logging.
- Authored detailed Swagger documentation to accelerate integration.

ADDITIONAL INFORMATION

Certifications: Full-Stack Web Development (Actualize Coding Bootcamp)

Soft Skills: Adaptability, Collaboration, Problem-Solving, Attention to Detail
